

STAINLESS STEEL RISING-BASE SOAKING TANK 100L HAPPYWASH100

Soaking tank capacity 100 litres

The HAPPYWASH100 stainless steel soaking tub is specifically engineered for immersing cutlery and small kitchen utensils. Its manual crank adjustment facilitates the elevation of the tub's bottom, thereby minimizing lifting effort. Compatible with professional dishwasher racks, this durable and hygienic tub is perfectly suited for high-demand environments such as catering.

Reference	Product designation	Ability	External dimensions.	Tray specifications
WASH100	100L detachable bottom tray	100 L	700 x 700 x Ht. 1125/900 mm	600 x 600 x Ht. 300 mm

Ergonomics.

The HAPPYWASH100L is specifically engineered to be used with professional dishwasher baskets. Perfect for soaking cutlery and small utensils, it enables the preparation of baskets prior to washing, thereby minimizing handling. A genuine time saver and an ergonomic solution for the kitchen!

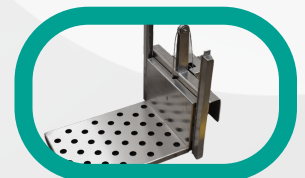

Compact.

The HAPPYWASH100 merges efficiency with space-saving design due to its compact dimensions, making it perfect for small washrooms. It can be conveniently placed beneath workstations or adjacent to dishwashers, all while maintaining capacity and ergonomic standards.

Resistant.

The HAPPYWASH100 provides exceptional resistance to corrosion and challenging environments. Perfect for rigorous use, it ensures durability, hygiene, and safety on a daily basis.
