

STAINLESS STEEL RISING BASE SOAKING TANK 300L HAPPYWASH300

Soaking tank capacity 300 litres

The HAPPYWASH30 stainless steel rising base soaking tank is an ergonomic and hygienic soaking solution that merges comfort with cleanliness. Specifically designed for soaking stainless steel GN containers, utensils, and various equipment, it enhances efficiency through its crank-adjustable rising base, minimizing lifting effort. Sturdy and easy to maintain, it is an indispensable tool for catering kitchens. Featuring a rising basket system, dishwashing becomes effortless: you can soak dishes and retrieve them at an ergonomic height, eliminating the need to bend over.

AISI 304 stainless steel fabrication

Soaking GN trays, plates, or other implements.

Capacity 300 liters

Drainage valve

Fitted with Ø160mm caster wheels

Elevating the inner basket decreases weight and effort

Technical *specifications*

Reference	Product designation	Capacity	External dimensions.	Tray specifications
WASH300	300L rising base soaking tank	300 L	1130 x 735 x Ht. 1095/900 mm	665 x 540 x Ht. 580 mm

Ergonomics.

The HAPPYWASH300 is a 300L stainless steel tub engineered to facilitate kitchen tasks, particularly when soaking utensils prior to washing. Its generous capacity enables the accommodation of large utensils, allowing for easy retrieval without the need to bend down. It is a valuable addition for enhancing efficiency, improving ergonomics, and ensuring daily comfort.

Upgrade.

The HAPPYWASH300 is equipped with a crank for adjusting the rising base, featuring a pulley system that multiplies the lifting force, thereby reducing strain on the back and shoulders. As a result, the load to be lifted is considerably lightened.

Resistant.

The HAPPYWASH300 provides exceptional resistance to corrosion and challenging environments. Perfect for rigorous use, it ensures durability, hygiene, and safety on a daily basis.
