

STAINLESS STEEL TROLLEY WITH MANUAL HEIGHT ADJUSTMENT HAPPYCARTMAN

With or without bottom shelf

The HAPPYCARTMAN stainless steel manual height-adjustable trolley has a unique concept that combines mobility, height adjustment and an ergonomic workstation. Thanks to its crank control and stainless steel telescopic cylinder, the height can be easily adjusted to adapt to each user, thus reducing MSDs (Musculoskeletal Disorders).

Made from AISI 304 stainless steel, with swivel casters and a high-quality finish, it is perfectly suited to the demands of the pharmaceutical and food industries. Compact, robust, and fully washable, it is also available in custom sizes.

AISI304 stainless steel construction

Capacity 100kgs evenly distributed

Reinforced 15/10 stainless steel top

Equipped with 4 Ø 125 stainless nylon swivel castors, 2 of which have brakes
