

STAINLESS STEEL CONSTANT-LEVEL TROLLEY HAPPYSPRING EURO 120 KG

A neutral euro bin open execution

The HAPPYSPRING EURO 120KG stainless steel constant level trolley enhances workflow efficiency while minimizing physical exertion. Specifically designed for euro trays (600x400 mm), it automatically sustains an optimal working height through its spring mechanism, eliminating unnecessary strain and promoting comfort and productivity. Its open design facilitates swift and easy access to trays, making it particularly suitable for high-demand settings such as catering and the food industry. Compact, durable, and cost-effective, it stands as the quintessential ergonomic companion.

AISI 304 stainless steel fabrication

Spring leveling

Compatible with GN 1/1 tray dimensions, 600x400mm

Adjustable from 700 to 1000 millimeters

Reference	Product designation	Dimensions	Platform	Charge	Weight
CNC050102	Constant-level trolley for Euronorme solid bins with open handles, 120kg Eco	770 x 459 x 1000 mm	620 x 420 mm	120 kg	47 kg

CONSTANT-LEVEL TROLLEY FOR EURONORME SOLID BINS
WITH OPEN HANDLES
HAPPYSPRING EURO 120 KG

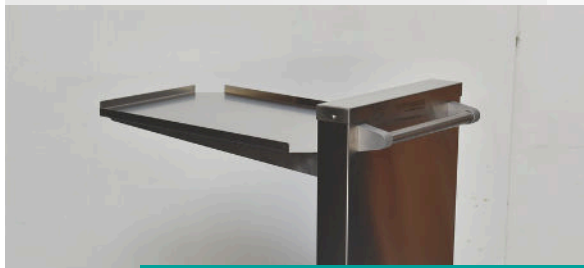

Compact.

Thanks to its compact design, the spring-loaded self-leveling trolley seamlessly integrates into even the most confined workspaces. It provides optimal ergonomics while maintaining a clutter-free environment.

Height-adjustment.

The trolley's spring mechanism automatically calibrates the platform height in accordance with the load, ensuring an ergonomic working height. This minimizes bending and strain, thereby enhancing user comfort.

Optimal grasp.

The ergonomic handle of the stainless steel neutral Euro bin constant level trolley facilitates effortless and secure maneuvering. Its open design enhances grip, promoting user comfort in challenging environments.
