CONSTANT LEVEL TROLLEY HAPPYSPRING CASIER

Compact.

Thanks to its compact design, the spring-loaded self-leveling trolley seamlessly integrates into even the most confined workspaces. It provides optimal ergonomics while maintaining a clutter-free environment.

Upgrade.

The trolley's spring mechanism automatically calibrates the platform height in accordance with the load, ensuring an ergonomic working height. This minimizes bending and strain, thereby enhancing user comfort.

Optimal grasp.

The ergonomic handle of the stainless steel neutral Euro bin constant level trolley facilitates effortless and secure maneuvering. Its open design enhances grip, promoting user comfort in challenging environments.
