

STAINLESS STEEL CONSTANT-LEVEL TROLLEY HAPPYSPRING EURO 240 KG

A neutral euro bin open execution

The HAPPYSPRING EURO 240KG stainless steel constant level trolley is a premium stainless steel trolley engineered to sustain a constant level. It is perfectly suited for the efficient transportation, storage, and provision of bins. With its open monocoque design, it offers both hygiene and durability. The platform is specifically crafted to support Euro bins (up to 240 kg), facilitating seamless handling and maximizing user comfort.

AISI 304 stainless steel fabrication

Compatible with GN 1/1, 600x400, and 800x600 formats.

Load leveling through the utilization of springs

Reference	Product designation	Dimensions	Charge	Weight
CNC050103	Constant level trolley designed for open Eurobins 240kg	1118 x 659 x 1000	240 kg	80 kg

CONSTANT LEVEL TROLLEY NEUTRAL EURO TRAY OPEN CONFIGURATION HAPPYSPRING EURO 240 KG

Compact.

The HAPPYSPRING is both compact and ingenious, enabling it to seamlessly integrate into any setting, even the most limited spaces. Its spring mechanism provides optimal ergonomics while maintaining a discreet and practical design.

Upgrade.

The HAPPYSPRING autonomously modifies the height of the tabletop according to the load and the parameters you have established. Consequently, you experience a consistently optimal posture, diminished effort, enhanced comfort, and heightened productivity on a daily basis.

Optimal grasp.

The HAPPYSPRING is straightforward and secure to operate. Its open design facilitates optimal handling, even in challenging environments.
