

STAINLESS STEEL CONSTANT-LEVEL TROLLEY HAPPYSPRING GRILLES

Baking racks and trays

The HAPPYSPRING stainless steel constant-level trolley is an ideal solution for the efficient handling of baking racks, baking sheets and 600x400 mm trays. Constructed entirely from 304 stainless steel, this trolley exemplifies robustness, hygiene, and durability. Compact and practical, it features a constant-level platform, a rear push bar, and four swivel wheels, two of which are equipped with brakes, ensuring optimal maneuverability. Whether utilized in a workshop or kitchen, it guarantees superior working comfort and seamless logistics.

AISI 304 stainless steel fabrication

Ideal for baking racks and trays

Load distribution utilizing springs

Technical specifications

Reference	Product designation	Dimensions
CNC070101	Constant level trolley for trays and baking racks 600x400 - 4 hoops	670 x 560 x 820 mm
CNC070102	Constant level trolley for heavier baking trays - 4 hoops	670 x 560 x 820 mm

STAINLESS STEEL CONSTANT LEVEL TROLLEY HAPPYSPRING

Compact.

The HAPPYSPRING represents a versatile solution that seamlessly integrates into any environment, even the most confined spaces. Its innovative spring system ensures a consistent level, providing optimal working comfort. Discreet, practical, and ingenious, it serves as the perfect solution for the effortless transportation of baking racks and trays

Upgrade.

The HAPPYSPRING modifies the height of the tabletop based on the load and the parameters you have set. This adjustment ensures a consistently optimal posture, minimizes effort, enhances comfort, and boosts productivity on a daily basis.

Optimal grasp.

The HAPPYSPRING GRILLES is distinguished by their outstanding ergonomics. Safe, comfortable, and intuitive, this tool ensures optimal fluidity of use for the most effective daily tasks.
