HappyManut
ergonomic solutions

Using the push-pull technique enhances posture of the user

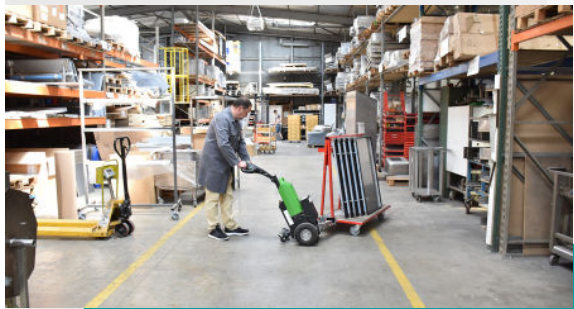

Ergonomics.

The HAPPYTRACT1500 is a compact yet robust machine, capable of safely transporting up to 1500 kg. It features an adjustable drawbar, variable speed, an audible warning system, and a straightforward hitch mechanism, ensuring comfort and control.

Handling.

Ultra-compact and user-friendly, the HAPPYTRACT1500E ensures outstanding maneuverability for transporting up to 1500 kg. Its adjustable drawbar, dual drive wheels, variable speed, and oscillating claw facilitate precise and effortless navigation, even in confined areas.

Securing the cargo.

The HAPPYTRACT1500E offers comprehensive load management. Its attachment system guarantees dependable support and optimal tracking of the trucks, eliminating the risk of skidding. Coupled with smooth and stable traction, this equipment facilitates safe maneuvering, even with loads reaching 1500 kg.
