

STAINLESS STEEL HIGH LIFT PALLET TRUCK HAPPYPALEV

Electric with a consistent level

The HAPPYPALEV stainless steel high-lift electric pallet truck with a constant level is both robust and reliable, constructed from stainless steel to withstand moisture and chemicals. Its precise and progressive electric raising and lowering system is operated via the handle, ensuring optimal load control. This electric pallet truck serves as an ideal solution for individuals who must perform numerous lifts throughout their workday. With its constant level system, the operator is relieved of any manual adjustments, as the load automatically adjusts to the appropriate height, thereby eliminating the need to bend over.

AISI 304 stainless steel fabrication

Lifting height of up to 800 mm

Operating temperature
-20 to +60 °C

Potential for modifying the height of the detection cell

Automatic leveling
(constant elevation)

Technical *specifications*

Reference	Product designation	Capacity	Minimum fork elevation	Maximum fork elevation	Ht. maximum	Fork width	Fork length	Weight
TP0103001	High-lift electric pallet truck stainless steel	1000 kg	90 mm	800 mm	1670 mm	540 mm	1200 mm	163 kg

We all thrive at work
through  **plifted well-being.**

ergonomic solutions

STAINLESS STEEL HIGH-LIFT PALLET TRUCK HAPPYPALEV

Health and Safety.

The HAPPYPALEV is constructed entirely of stainless steel, rendering it suitable for rigorous environments such as the food and pharmaceutical sectors. Additionally, it exhibits resistance to moisture and chemicals.

Upgrade.

The HAPPYPALEV high-lift pallet truck is equipped with a constant-level system that automatically adjusts the load height, thereby minimizing the effort needed and enhancing operational comfort.

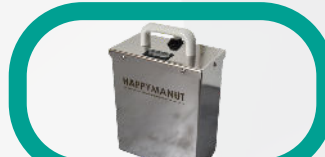

Enhanced productivity.

The HAPPYPALEV enhances ergonomics and throughput in material handling. Its automatic height adjustment maintains loads at an optimal working position, leading to increased productivity, reduced operator fatigue, and improved daily efficiency.

Using a high-lift pallet truck enhances posture of the user

Removable battery

Constant level cell
Detection delay setting possible
