HappyManut
ergonomic solutions

Ergonomics.

The HAPPYPAT200 is a height-adjustable dough hook designed to enhance your daily operations. Its semi-cylindrical stainless steel bowl, with a capacity of 200 L, streamlines the handling and mixing of ingredients through an ergonomic adjustment that ensures optimal comfort. Furthermore, this dough hook is mobile, minimizing operator fatigue and enhancing workplace ergonomics.

Upgrade.

The HAPPYPAT200 boasts an adjustable height, enhancing both ease of use and ergonomic benefits. Its innovative, mobile design optimizes operator comfort while maintaining a tidy workstation.

Resistant.

The HAPPYPAT200 is engineered for durability. Constructed from premium materials, it can endure rigorous use while accommodating up to 200 kg, guaranteeing consistent reliability and performance.
