

# STAINLESS STEEL ELECTRIC EURO BIN-CART HAPPYTRACT 400 EXT

## Model 1 European Tray - External

The HAPPYTRACT400 EXT motorised truck for 1xEuro bin is specifically designed for the secure transport of one Euro bin (euro bin supported on the bottom edge). This device enhances handling capabilities in the most challenging environments, particularly for stainless steel Euro bins. Engineered to withstand high thermal and hygrometric conditions, the HAPPYTRACT seamlessly integrates robustness, stability, and maneuverability. It can effortlessly transport loads of up to 400 kg while prioritizing safety and efficiency within agri-food operations.

Reference	Product designation	Capacity	Fork width	Fork length	Length
TRACT400E	HAPPYTRACT for 1 x Euro Bin (supported on bottom edge)	400 kg	780 mm	695 mm	1345 mm

# STAINLESS STEEL ELECTRIC TUG HAPPYTRACT 400 EXT

## Ergonomics.

The HAPPYTRACT400 E serves as an indispensable everyday companion, engineered to streamline the management of European bins and alleviate the need for operators to rely solely on arm strength for pushing and pulling. It is a significant asset for enhancing ergonomics and efficiency at these workstations.

## Versatile for all your containers.

The HAPPYTRACT400 E manages all your heavy bins with exceptional lightness, safety, and precision. Its distinctive feature is the attachment system positioned on the sides of the bin, enabling it to accommodate all your bins, irrespective of their dimensions and characteristics.

## Securing the cargo.

The HAPPYTRACT400 E guarantees secure load transportation. Its sturdy and stable design enables the safe handling of up to 400 kg. With its emergency stop system and anti-crush skirt, your operations remain secure throughout every movement.

Using the push-pull technique enhances posture of the user
