

STAINLESS STEEL ELECTRIC TUG FOR 2 EURO BINS HAPPYTRACT 800 EXT

Capacity 800kg - External

The HAPPYTRACT800 EXT motorised tug is meticulously engineered to securely transport two stainless steel Euro bins concurrently. It serves as an exceptional tool for rigorous food processing plants. Its robust construction and maneuverability render it resilient to adverse conditions, while its adaptation to thermal and hygrometric constraints makes it suitable for diverse environments. With a load capacity of up to 800 kg, it facilitates seamless load movement. Owing to its benefits in safety, stability, and efficiency, the HAPPYTRACT800 E enhances your logistics operations.

AISI 304 stainless steel fabrication

Supported on both sides of the Euro bin

Transferring 2 Euro bins simultaneously: an efficient time-saving strategy.

Unrestricted autonomy facilitated by its interchangeable battery

Soft start

Two stabilizing wheels to prevent the load from toppling.

2 speeds, including 1 slow speed for movement with the handle raised

Superior protection against water and dust.

Protective skirt on the anti-crush wheel

Ergonomic grip with emergency stop feature

TRACT800E	HAPPYTRACT 800 for transporting 2 x Euro bins	800 kg	780 mm	1320 mm	1970 mm

STAINLESS STEEL ELECTRIC TUG FOR 2 EURO BINS-CART HAPPYTRACT 800 EXT

Ergonomics.

The HAPPYTRACT800 E serves as an invaluable everyday companion, meticulously engineered to facilitate the management of European bins. It enables the operator to circumvent the need for pulling and pushing these bins solely through arm strength. This feature significantly enhances ergonomics and handling within these work environments.

Conserve time.

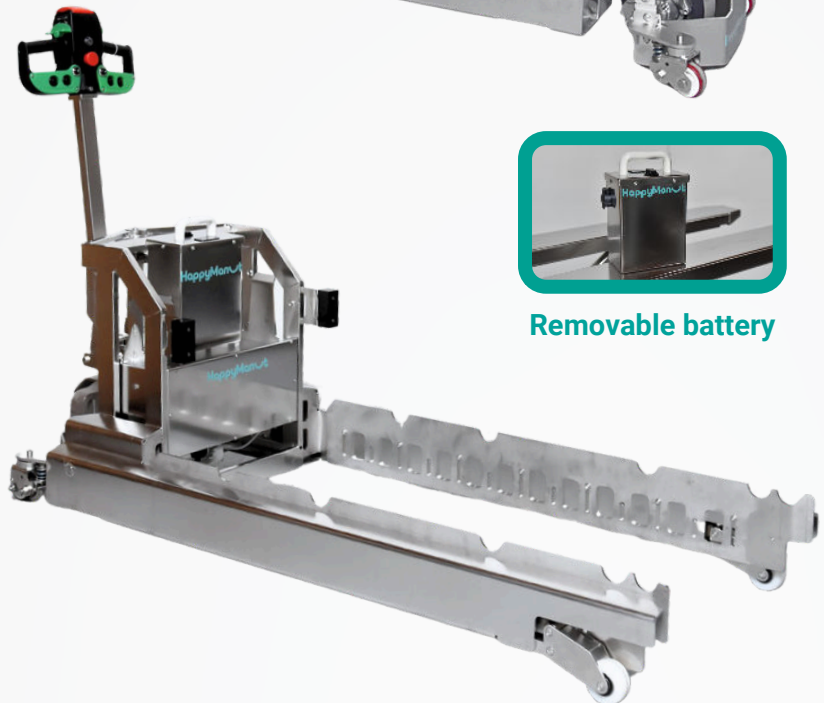

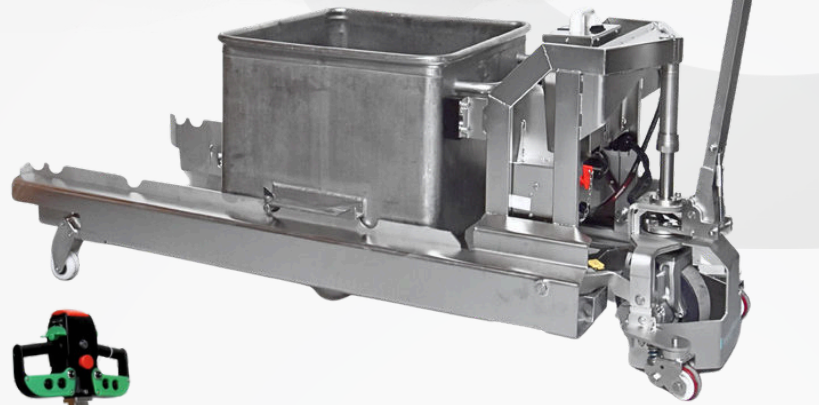

The HAPPYTRACT800 efficiently manages all your heavy Euro bins with remarkable lightness, safety, and precision. Its distinctive feature is the attachment system positioned on the sides of the bin, enabling it to accommodate all your bins, irrespective of their dimensions and characteristics. Furthermore, it provides significant time savings by facilitating the simultaneous transport of two bins.

Securing the cargo.

The HAPPYTRACT800 ensures secure load transportation. Its robust and stable design enables the handling of up to 800 kg without risk. With its emergency stop system and anti-crush skirt, your operations are safeguarded during every maneuver.

Using the push-pull technique enhances posture of the user

Removable battery
